Your Prime Minister,

To protect the Torres Strait Islands, the ancestral lands, and the human rights of First Nations People, I call on your government to take adequate climate action by rapidly reducing carbon emissions in line with the world commitment of limiting global warming to 1.5°C, consistent with human rights guidelines, and in line with the best available scientific research.

Your government currently states that by 2030 it will reduce emissions 43% below 2005 levels. This is not enough to save the Torres Strait Islands. Leading climate scientists on the climate targets panel calculate that Australia's greenhouse emissions need to be reduced by 74% by 2030.

Sincerely,
